Summary

Front-End Developer with 4 years of experience delivering web applications and test automation. Key projects include RAN platforms, chatbot systems, and e-learning tools. Committed to clean code, quality engineering, and practical solutions that meet user and business needs.

Experience

Frontend developer
2024.08 - Now

Freelance

- Working on the development of a web application and website using React, Vite, and TypeScript.
- Responsible for building UI components, integrating REST APIs, and ensuring responsive design across devices.

FrontEnd developer, Test automation engineer
2023.06 - 2024.08 / Tokyo, Japan

Kotozna

- Developed new UI features and customized chatbot behavior using Vue.js and TypeScript.
- Designed and implemented automated testing solutions to ensure robust multilingual support across platforms.

FrontEnd developer, UI/UX designer
2022.04 - 2023.06 / Tokyo, Japan

Rakuten

- Designed intuitive interfaces with Figma and developed responsive frontend features using JavaScript, TypeScript, React, Angular, and Material UI for the Rakuten RIC platform.
- Collaborated with DevOps and backend teams to optimize RAN operations through scalable UI solutions and seamless integration.

Coding teacher, Developer
2020.04 - 2022.03 / Kyoto, Japan

Kyoto Lesson

- Worked as Web Developer, building responsive, user-friendly websites using HTML, CSS, JavaScript, and Figma for UI/UX design.
- Taught programming to junior students and organized biannual code camps, fostering hands-on learning and foundational coding skills.

Education

PhD, Applied mathematics, Operation research
2016.09 - 2019.11

Azad university Iran Science and research

- Working on applying advanced DEA methodologies for ranking insights from data mining and evaluating efficiency in complex multi-objective optimization problems.

MSc, Applied mathematics, Operational research
2011.09 - 2014.02

Azad university Iran, Science and research branch

MSc, Applied mathematics
2005.09 - 2010.07

Azad university Iran

Skills

Programming Languages	***Experienced:*** Javascript | Typescript ***Familiar:*** Python
Project management & version control	GIT | Bitbucket | CLI | Agile Methodology | Jira | Confluence
Frameworks & Libraries	React | Redux | Node.JS | Tailwind CSS | Vue.js | Angular
Tools & Sotwares	Selenium | Figma | Adobe XD | Slack | VS Code | Docker
Languages	***Fluent:*** English, Japanese ***Native:*** Persian

Hobbies and Volunteer Activities

- Programming   • Designing   • Tennis   • Drinking

Designed and prototyped the UI/UX of a landing page and admin panel using Figma, enhancing user experience and usability (Golestan charity Foundation, 2021/12 - 2022/10)
